## International Fellowship of Flying Rotarians IFFR Scandinavian Section

### Saturday 16 August

#### 09:00-11:30 Guided tour to underground mine (LKAB infoMine)

There are 500 kilometers of asphalt roads and a railway system at 850 meters under ground level. You are going down with the bus to the exhibition mine 540 metres below ground level.

Here you will be shown a video over LKAB and its evolution during the last 100 years.

The exhibition mine gives an excellent picture of modern mining techniques. Nearly 20 million tons iron ore is annually to be refined in the factories on the mountain.

The tour takes about 2 hours and 45 minutes. Coffee/tea and some cookies will be served during the tour.

#### 19:00-22.00 Northern light tour with dinner

We will drive out to the Camp Aurora for trying to have opportunity to see spectacular Northern lights. Guide will tell about phenomena, myths of Northern light. Dinner will be served during the tour.

### Sunday 17 August

**10:00-12:00** IFFR Scandinavian Section annual meeting at Hotel.

**12:00-13:00** Lunch and Farewell.

**13:30** Departure to Kiruna Airport.

### Additional program
